

SAMIN REZAEI

Data Science & Artificial Intelligence Student

saminrezaei84@gmail.com | +968 9170 8149 | Muscat, Oman

PROFILE

A top-performing Data Science & AI student at UTAS Muscat with a GPA of 3.96, recognized twice for Academic Excellence. Driven by a deep commitment to quality — known for clean code, serious dedication to learning, and delivering work to the highest standard. Combines strong technical depth across data systems, web development, and networking with hands-on experience teaching robotics and leading teams. Seeking a Data Science or AI role where precision and passion both matter.

EDUCATION

Bachelor of Data Science & Artificial Intelligence

Feb 2024 – Present

University of Technology and Applied Sciences (UTAS), Muscat

- GPA: 3.96 / 4.00
- Academic Excellence Award — Fall Semester 2024–2025
- Academic Excellence Award — Spring Semester 2024–2025

WORK EXPERIENCE

Part-Time Robotics Teacher

2023 – Present

Leco Khaleej / Elm-al-raqi Group, Muscat

- Taught robotics concepts and hands-on programming to students as part of Leco's STEM education programme.
- Developed lesson plans and guided students through building and programming robots.

Referee — International Lecocup Competition

2023

German University of Technology in Oman (GUtech)

- Served as an official referee at the international Lecocup robotics competition hosted at GUtech.
- Evaluated student robot performances and ensured fair application of competition rules.

PROJECTS

Academic Portal — MERN Stack Web Application | *React, Node.js, Express, MongoDB*

Full-stack web application for managing students and courses, featuring a REST API backend, Mongoose data models, React Router navigation, and a Bootstrap UI — built with a clean component-based architecture.

ISC Web Platform — International Student Club | *PHP, HTML/CSS, MySQL* | Database & Systems Lead

Led the database architecture and systems design for a real-world web platform built to digitalize the operations of the International Student Club (ISC) at UTAS. Delivered features including member login, feedback system, manager rewards panel, and database-driven membership handling — developed collaboratively with a team.

Muscat Hotel — Full-Stack Booking System | *PHP, HTML/CSS, MySQL*

Dynamic hotel booking web application with user registration, room booking, payment simulation, admin dashboard, and profile management.

University Management Database System | *SQL, ERDPlus*

Designed a relational database for a university system — created full ERD, implemented tables, relationships, and SQL queries including inserts, updates, and selects.

Network Infrastructure Design & Simulation | *Cisco Packet Tracer*

Designed and simulated a complete network infrastructure covering routing, switching, and IP addressing schemes.

CERTIFICATIONS & COURSES

CCNAv7: Introduction to Networks — <i>Cisco Networking Academy</i>	Oct 2024
Introduction to Figma — <i>Simplilearn SkillUp</i>	Nov 2025
Introduction to JavaScript — <i>Great Learning</i>	Mar 2026

ACTIVITIES & RECOGNITION

CIS Poster Day — Project Selected for Presentation Dec 2025

Dept. of Computing & Information Sciences, UTAS Muscat

- Project was selected among peers to be formally presented to the department at the annual CIS Poster Day event.

SKILLS & TOOLS

Programming: Python, Java, JavaScript, PHP, SQL, HTML/CSS

Frameworks & Libraries: React, Node.js, Express, Bootstrap

Databases: MySQL / MariaDB, MongoDB

Tools & Software: Cisco Packet Tracer, Figma, RStudio, Primavera, NetBeans, ERDPlus, phpMyAdmin

Languages: English (IELTS 6.5), Farsi / Persian (Native)

Soft Skills: Public speaking, teaching, teamwork, analytical thinking, project management
