UTAS · 2027–2028

EDUCATION

Bachelor of Technology · Data Science and Artificial Intelligence
University of Technology and Applied Sciences (UTAS) · Muscat, Oman

Expected 2027 – 2028

WORK EXPERIENCE

Freelance Web Developer

2025 – Present

Self-Employed / International Student Club (ISC), UTAS · Muscat, Oman

- Coordinator and Development Lead for the International Students Club website, overseeing the design and development of a comprehensive web-based management system.
- Built full-stack features including member management, event scheduling, announcements, and activity tracking to streamline club operations.
- Implemented a participation points reward system to encourage student engagement and track involvement in club activities.
- Continuously maintained and improved the system based on stakeholder feedback, ensuring reliability and optimal performance.

Data Entry & Receptionist

2021 – 2022

NCMC – New Canadian Medical Center · Muscat, Oman

- Managed daily front-desk operations, including handling calls, scheduling appointments, and assisting visitors professionally.
- Maintained accurate digital and physical records by performing high-volume data entry with strong attention to detail.
- Improved workflow organization by maintaining filing systems, tracking records, and ensuring data accuracy and confidentiality.

PROJECTS

ISC Website — Club Management System [HTML · CSS · JS · PHP](#) <https://iscwebsite.page.gd>

Full web-based management system for the university's International Student Club, consolidating member management, event scheduling, announcements, and activity tracking in a single platform.

Planora — Smart Study Planner [React · Node.js · MongoDB · Express · AI API](#) <https://github.com/gheathwahab/planora>

MERN stack study planning application that enables students to organize courses and assignments while providing an integrated study timer and AI-powered personalized study schedules.
